

Heartland Renewable Energy Society's

Energy Solutions **TOUR** magazine

Published by Kansas City EcoConnect

So much to know about renewable energy and energy efficiency.

Did you ever wish you could find it all in just one place?

- Active Solar PV systems
- Passive solar design concepts
- Thermal heat storage in mass walls and slabs
- Energy recovery ventilators
- Super insulation construction techniques
- Earth contact
- Electric vehicle charging
- Energy retrofits
- Deconstructed and recycled materials
- Energy audits information
- Extensive caulking, sealing and weather-stripping
- Smart thermostats
- High efficiency windows
- Tankless gas water heaters
- Ground source heat pumps
- Wind turbines

See It All!!

October 2nd
